

# Welcome to **Accession**

## **STAY CONNECTED VIRTUALLY ANYWHERE**

Use all the features of your unified communications from Revere Systems on almost any device. Make or receive calls from your desk phone, computer, tablet or mobile phone. And, you can seamlessly move from one device to another, even during a call.

### Easy to Install & Use

When combined with your reliable service from Revere Systems, Accession Communicator is a powerful tool that helps you stay connected and can improve productivity. It's easy to install on your smartphone\*, tablet, PC or Mac.

### Convenient Features for Improved Productivity

Accession Communicator is the key to your unified communications system. It offers a wide variety of features and functions to fit your work habits and life.

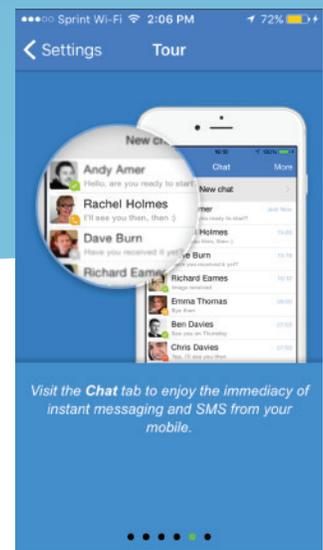

### Call from anywhere

Make and receive calls on your mobile as though you were at your desk. With single number convenience, the person you call will see your Revere Systems desk phone number, so you can choose who sees your mobile number.

### Seamlessly transfer calls

Move a call to your fixed line when you arrive at the office. Save your mobile minutes for when you're actually mobile. Take a call with you by switching it from your desk phone to your mobile, or even to your tablet.

### Instant messenger (IM) & Presence

You can send IM's to other people in your corporate directory who are using the same service, no matter what device they are using. And presence capabilities let you see in real-time if co-workers are available, offline, in a meeting and more.

# RECEIVE CALLS ON **ANY** DEVICE

When someone calls your office number, the call will appear on one or more of the devices that you've set up, including your desk phone, mobile phone, computer or tablet. Simply answer the call on the device that's most convenient for you.

## Business Services

You can use the same valuable services that you see from your office extension including, 4-digit dialing, auto attendant, automated call distribution and more.

---

## Call Manager

The call manager helps you utilize the features. It also makes it easy to mute calls, transfer calls, make three-way calls, place calls on hold, record calls (where local laws permit) and adjust the microphone or headset volume.

---

## Upgrade your calls to video

If the person you're calling has a compatible service, you can choose to uplift the call to a video call.

---

## Integrate your contacts

View and access all your contacts (including your corporate directory) in any device. Search, call and edit any of your contacts effortlessly and keep them synchronized.

## Visual Voicemail

Easily check your voice, video and fax messages. Voice messages can be converted to text so you can read them without dialing in to retrieve them. Listen, delete or respond at the touch of a button. And now there's only one message center to check.

---

## Conference Calls

It's simple to set up and manage audio conferences from your desktop.

---

## Softphone for your PC

Add a headset to your computer to make and receive audio and video calls, just like you would on your desk phone.
